GERALD TOMANEK FORT HAYS STATE UNIVERSITY PRESIDENT

The Number One fan of Fort Hays State Athletics is Dr. Gerald (Jerry) Tomanek. Dr. Tomanek and his lovely wife, Ardis, are virtually permanent fixtures at Tiger home football and basketball games. The couple also attend many road contests as well.

Since 1947, Dr. Tomanek has been a part of Fort Hays State University serving in several capacities. On January 17, 1976, Dr. Tomanek was named the seventh President of Fort Hays State University. Dr. Tomanek holds two degrees from the University and has his doctorate in Botany from the University of Nebraska.

Several honors have been bestowed on the expert of grassland ecology and range management. The highest of which came in the early Spring of 1979 when Governor John Carlin decreed Dr. Tomanek as "Kansan of the Year."

Dr. Tomanek recognizes the need for strong academics and the need for excellent administration in an institution of higher learning. The President knows also the importance that athletics can play in institutional success.

"I am very proud of our total athletic program, and it is an integral part of our total university," said Dr. Tomanek. "Young men and women are very fortunate to participate in intercollegiate athletics and can learn valuable lessons like freindship and teamwork in a way that will enhance their horizons."

PHIL WILSON FORT HAYS STATE UNIVERSITY ATHLETIC DIRECTOR

Fort Hays State Athletic Director Phil Wilson works unendingly for the betterment of Tiger athletics. Over the past three years, under Wilson's direction, Fort Hays State teams have risen in quality. An overall ranking of total athletic programs found Tiger teams to be sixth best among NAIA competition in 1977-78.

"We fully expect to be even better in the future, in fact we want Fort Hays State to be the Number One school in the NAIA," said Wilson.

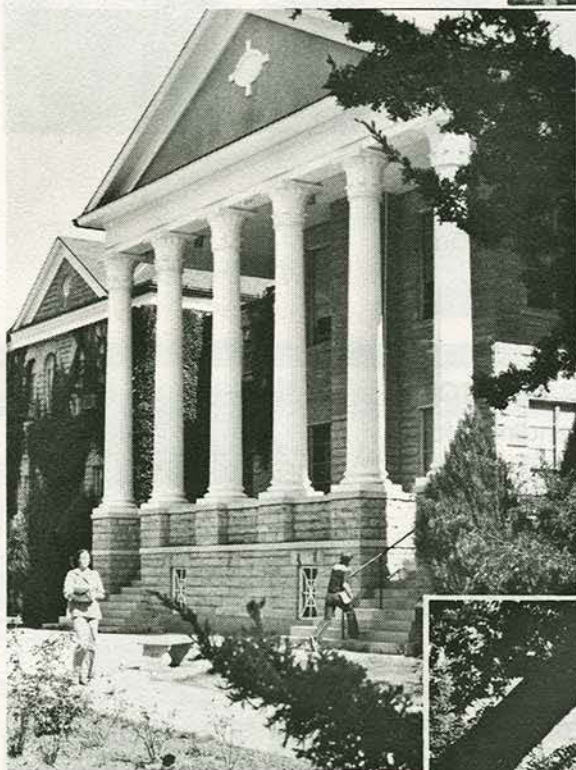

Always an innovator, Phil Wilson's hard work to promote Fort Hays State has paid off. New scoreboards for football and basketball, and new exciting basketball tournaments have become realities through Wilson's efforts. In addition, Wilson's creative mind has created many special fund raising projects and some very attractive road trips and better scheduling for all Fort Hays State teams. With Wilson as the mastermind for Tiger athletics, the goal of Number One cannot be very far away.

The two-time graduate of Kansas State University is a former baseball coach of the Wildcats. Under Wilson, the KSU baseball nine was always a contender for the Big Eight title. His teams compiled a 139-110 record over five years, the most victories in the school's history.

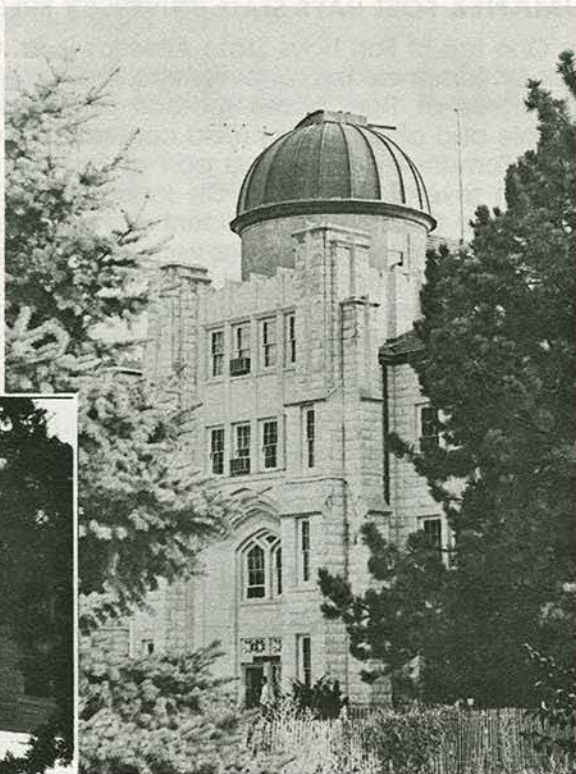

Wilson, also served Kansas State as an assistant athletic director. Wilson's duties included athletic ticket sales, facility management, promotions, and the "Steer-A-Year" club.

The 32-year-old Wilson is married to the attractive former Venita Felton of Mt. Vernon, Illinois. 'Nita can be seen lending vocal support at most Tiger athletic contests. The Wilsons have two daughters, Tammy and Sulynn.

The Memorial Union

FORT HAYS STATE UNIVERSITY

Fort Hays State University is 77 years young. The western Kansas campus is a combination of native limestone, new concrete, and copper. Compare old Sheridan Coliseum to "the Palace on the High Plains," Gross Memorial Coliseum.

The tradition of a quality education is alive on the Fort Hays State campus. An outstanding faculty employs modern teaching techniques and new technologies to help over 5,300 students reach their goals.

Located in the historic Hays, Kansas, Fort Hays State University straddles the banks of Big Creek, on the west side of the city.

At one time western legends such as "Wild Bill" Hickok and Calamity Jane populated the town. While Fort Hays State University is the educational center of western Kansas, Hays is the hub for agriculture, business and service industries.

The University fills the needs for education, service and research to the community by offering degrees from its five schools, Business, Education, Nursing, Arts and Sciences, and the Graduate School.

Fort Hays State University stands for high quality education on the high plains.

WOMEN'S TENNIS OUTLOOK

The Fort Hays State University Women's tennis team is out to defend their Central States Intercollegiate Conference Championship and to regain the KAIWA crown in 1979.

In her second year at FHSU, coach Molly Smith is optimistic about the 1979 schedule and her squad of twelve Tigrette netters.

Veteran Donna Keener, who returns for her third season with the Black & Gold, leads the list with experience and honors. From her position as number one singles player in 1978, Keener enjoyed a successful year with the Tigettes as she captured the KAIWA State Championship.

Performances from returnees Diane Beougher, Carmen Ginther, and Patty Hullman along with efforts of transfer Rhonda Stithem are expected to spell added success for FHSU.

A host of talented freshmen and sophomores round out the Tigrette roster.

The fall season will be highlighted by the KAIWA Regional Tournament in late October. However, before the Tigettes look that far down the road, they will have a schedule of thirteen regular season matches confronting them.

Donna Keener

WOMEN'S VOLLEYBALL OUTLOOK

When the FHSU women's volleyball team hits the court this season, a number of new faces will be apparent. Even so, three veteran players return to lead the rebuilding efforts of the Tigettes this fall.

Familiar faces for the Black & Gold this season include seniors Darlene Cromwell, Donna Guesnier, and Sharon Keller. The three were called on heavily last year and were among the top statistical leaders on the squad.

Recruiting efforts have been rewarding for Coach Jody Wise. Included in her top recruits are Juco transfers Kristi Hollis, Kim Van Camp, and Gina Youngblood. Freshmen Mary Brawner and Holly Powers are expected to add considerable depth to the Tigrette Line-up.

"I feel our ability level is much higher than a year ago," said Coach Wise in reference to her 1979 roster. "We are going to have a well rounded team with some experience behind it. The squad is looking for an overall improved year and I know we've got the personnel to do just that."

Darlene Cromwell

Donna Guesnier

WOMEN'S CROSS COUNTRY OUTLOOK

Women's cross country coach Nancy Popp feels the outlook for 1979 is promising as the Tigettes prepare for their third season of competition at Fort Hays State University.

Over the past two years injuries have plagued the Tigette Harriers to the point where team finishes were few and far between. However, this season it is hopeful that the FHSU squad can field a full team throughout their six meet stand.

Linda Roger, Buffalo, N.Y. senior, returns to pace the Black & Gold in 1979. As a junior, Roger led the Tigette attack posting her best time at the FHSU Invitational. She covered the 5000 meter course in 18:44 to capture the first place title.

Debbie Compton and Sue Torres also return from last season. After running a year with the Tigettes, both are expected to contribute to the FHSU lady harriers.

Linda Roger

A FACELIFT FOR FHSU by Dana Meyer and Edith Dalke

If construction is a sign of growth, then Fort Hays State is a university in the midst of expansion. Not since the completion of Gross Memorial Coliseum in 1972 has the campus undertaken so many plans to build.

On the northeast corner of the campus, a wire fence surrounds heavy construction equipment and huge mounds of dirt. Carefully calculated plans for a massive office and classroom building to replace Rarick Hall are slowly but surely becoming a reality.

The old Rarick had been deemed a safety hazard, and the university is sorely in need of the additional classroom and office area that the new building will provide. Departments to be housed in this building include education, art, English, foreign language, economics, sociology, mathematics, philosophy and political science.

This project provides replacement space for areas occupied in the old Rarick Hall, Picken Hall, Sheridan Coliseum and temporary facilities in Cunningham Hall. It will permit reassignment of space in Davis Hall and the Art Annex to other departments needing additional space. It will also allow the planned renovation and remodeling of Picken Hall and Sheridan Coliseum.

"Presently, our faculty offices are scattered from Wiest and Martin Allen to the library and other places," Dr. Emerald Dechant, acting chairman of the education department, said. "This has presented a big problem with communication. We'll be tickled pink to move into the new building altogether."

An interesting feature of the new building is the provision for a supplementary solar heating system to provide up to 65 percent of the total annual heating needs. It will be the largest solar-heated public building in the state.

The architectural design of the building includes a flat roof, additional piping and connections and storage space for heating units beneath the building, a contrast to the limestone structures surrounding it.

The building, currently 20 to 25 percent completed, is scheduled to be finished in January 1981. The project will cost approximately \$5,453,500, financed primarily by state funds. To compensate for a state budget cut, the university was forced to reduce the building's area.

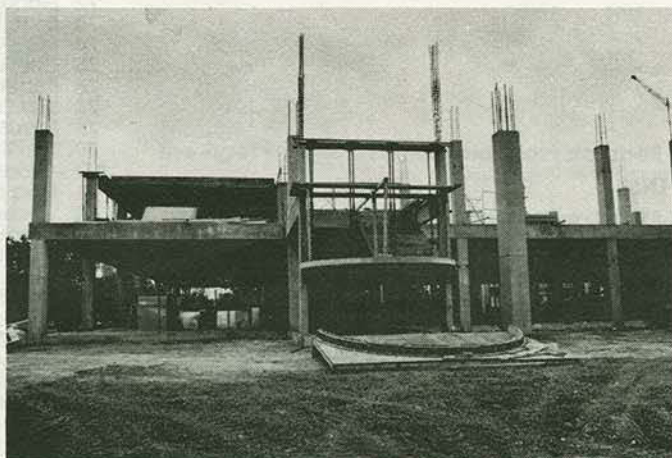

"It was a controversial issue to begin with and the State Senate did not pass it," President Gerald Tomanek said. "It was reintroduced to the House after some adjustments had been made in the plans."

"There were things cut out that we wanted and there was good use for the space requested, but I'm extremely pleased to have the plans passed," Tomanek said.

Construction of a nurse education building to be located at the corner of College Drive and South Campus Drive, south of President Tomanek's residence, is about to begin. This project will provide headquarters for the School of Nursing, plus classroom laboratory and research space, replacing inadequate, outdated facilities in Sheridan Coliseum.

Dean of the School of Nursing, Dr. Elaine Harvey, said, "I am excited about the new building. There will be the capability of expansion and the building will help attract additional students. The students already involved in the program will have more pleasant facilities to work in with ease and comfort."

The completion date for the nursing building is the fall of 1980. Federal grants and state funds will finance the \$1 million project.

TIGER BOOSTER CLUBS

Contributors to the Fort Hays State University athletic program can join one of several booster clubs depending on the amount of their contribution.

The Black and Gold Club is for contributions of \$10 to \$35. Features of this club include a membership card entitling the holder admittance to Tiger Rooms, schedules of athletic events, the athletic newsletter, priority on purchase of football and basketball season tickets and special events and travel.

Contributions of \$36 to \$99 denote the Varsity Club level. Included in this club are all the features of the Black and Gold Club plus a higher priority on the purchase of season tickets.

A \$100 to \$499 donation enables contributors to be classified as Century Club members. Besides the above-mentioned features, members receive a leatherette plaque with name, reserved parking space at athletic events, name listed on Athletic Board and a car decal.

All-American Club status is achieved with a contribution of \$500 to \$999. Club members, in addition to the features of the Century Club, are entitled to varsity brochures, coaches letters and after-game parties.

The highest level of membership is the Flying Tiger Club for contributions of \$1000 or more. Flying Tiger members have top priority on purchase of football and basketball season tickets, VIP parking, receive a special plaque and attend a special dinner. They are also eligible for all the features of the other clubs.

A popular booster club at Fort Hays State University is the Tiger Beef Club. Membership in the Beef Club is awarded to interested boosters who contribute a steer or cash (\$250 or more which is used to buy a steer) each year. Proceeds from the sale of such livestock go directly into the department's budget. Beef Club members receive similar benefits as do members of the Century Club.

Going to McDonald's® is almost as much a part of school as going to class. You've made us the place to meet, to talk, to have a good time, to celebrate your victories and help forget defeats.

You've made McDonald's more than just another place to eat. And that's why, nobody can do it like McDonald's can.

3406 Vine St., Hays, Kansas
